AHD007/RHD007 说明书

1. 产品概述

本设备为集检测与消磁功能于一体的便携式仪器。作为非接触式人体检测手持设备，其性能卓越且多功能集成，包含检测器、消磁器、计数器及可充电锂电池。支持双模式切换：消磁/验证模式或纯验证模式，是当前最先进的集成检测消磁设备。

2. 指示灯与按键标识

指示灯功能	
绿色	检测器运行指示灯（检测器激活时点亮）
蓝色	消磁器运行指示灯（消磁器激活时点亮）
红色	1. 警报指示灯（检测到标签时点亮） 2. 充电指示灯（充电过程中点亮）
黄灯	电量不足提示（需充电时亮起）
绿灯	电量充足指示（充电完成时亮起）
设备按键标识	
DET	标识检测功能
DEC	标识失效功能
计数器	标识计数功能
OFF	电源关闭按钮

3. 技术规格

详细规格	
检测高度	射频模式：50-150mm；AM 模式：30-80mm
额定电压	直流 7.4V，3300mAh
设备尺寸	340×80×55 毫米（长×宽×高）
设备重量	0.3 千克

4. 产品特性

1.非接触式人体检测：便携式手持设计实现便捷的非接触式人体检测。

2.可充电锂电池：配备可充电锂电池，长期使用无需频繁更换电池。

3.视听双重提示：通过指示灯与声音双重提示激活标签状态，确保清晰反馈。

4.模式可选：支持禁用/验证与纯验证模式灵活切换，满足多样化使用需求。

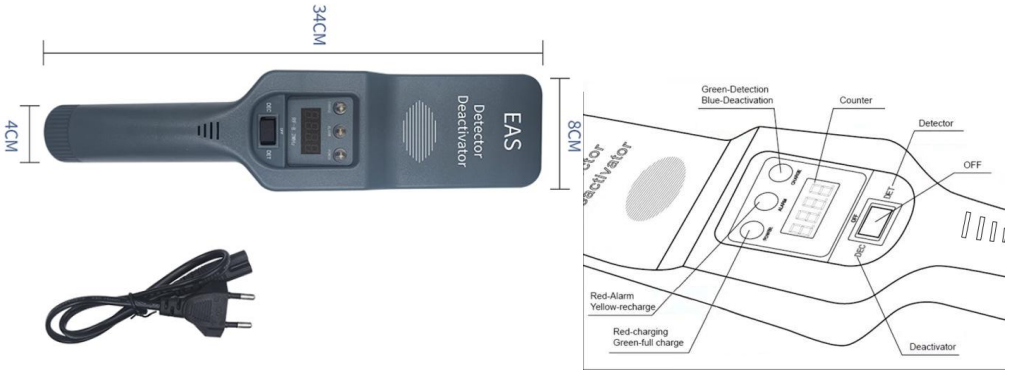

5.充电说明

1.当黄色 LED 亮起时，表示设备电量不足，需立即充电。

2.将充电线连接至设备充电端口；充电过程中红色 LED 将持续亮起。

3.充电完成时绿色 LED 亮起。拔除充电线后设备即可正常使用。

AHD007/RHD007 Instruction

1. Product Overview

This is a portable device integrating detection and deactivation functions. As a handheld detector for non-contact body checks, it features excellent performance and combines multiple functions, including detector, deactivator, counter, and rechargeable lithium battery.
It supports selectable modes: Deactivation/Verification or Verification only, making it the most advanced integrated detection & deactivation device currently available.

2. Indicator Lights & Key Markings

Indicator Light Functions	
Green	Detector operation indicator (lights up when detector is active)
Blue	Deactivator operation indicator (lights up when deactivator is active)
Red	1. Alarm indicator (lights up when a tag is detected); 2. Charging indicator
Yellow	Low battery prompt (lights up when charging is required)
Green	Full charge indicator (lights up when charging is complete)
Key Markings on Device	
DET	Identifies the detection function

DEC	Identifies deactivation function
Counter	Identifies the counting function
OFF	Power-off button

3. Technical Specifications

Technical Specifications	
Detection Height	RF mode: 50-150mm; AM mode: 30-80mm
Rated Voltage	DC 7.4V, 3300mAh
Device Size	340× 80×55mm (Length×Width×Height)
Device Weight	0.3KG

4. Product Features

1.Non-Contact Body Check: Portable handheld design enables convenient non-contact body detection.

2.Rechargeable Lithium Battery: Equipped with a rechargeable lithium battery for long-term use without frequent battery replacement.

3.Visual & Audible Indication: Provides both visual (indicator lights) and audible alerts for active tags, ensuring clear status feedback.

4.Selectable Modes: Supports flexible mode switching between Deactivation/Verification and Verification Only to meet different usage needs.

5.Charging Instructions

1.When the yellow LED lights up, the device has low power and needs to be charged immediately.

2.Connect the charging cable to the device’ s charging port; during charging, the red LED will stay on.

3.When charging complete, the green LED will light up. Disconnect the charging cable and the device is ready for use.
