Rf decoder board

A new generation of decoding boards
New era of decoding technology

Get started easily
Fast decoding

Decode height :15 – 25cm, place the soft label at the top of the panel within the effective range
Sound and light warning warning, "beep" long sound, remove the label, decode successfully

Detection label:
Sound and light warning, soft label decoding

To insert a desktop, insert a 21.5x21.5cm hole on the desktop

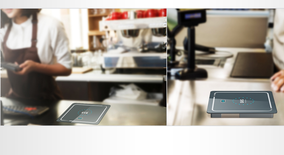

Gain-frequency regulation

Frequency and gain can be adjusted by knob
Frequency :8.2MHz

Bring you a new experience

The innovative design of the multi-functional atmosphere light display combined with the counter
The perfect integration of decoding detection and atmosphere experience

Product parameter

Name Rf decoder board	Apparent dimension 240x240x30mm
Decoding height 15-25cm	Opening size 215x215mm
Frequency 8.2MHz	Package size 900x250x320mm
Voltage 110-220V	Weight 1.0Kg/ set, 10 sets/box (11Kg)
Colour blue	Materials Glass+ABS plastic+motherboard

Mode of use
Embedded, desktop

Mode of use

Embedded
First, cut 21.5x21.5cm holes on the desktop
Put decoder board
Make it flush with the desktop for perfect invisibility

Desktop
Use it directly on the desktop
Can be moved at will, no need to fix
